

ENGINEERED FOR ELEVATORS

APEIRON™ LTE+ PRECISION LED DOWNLIGHT

-  90+ CRI True-to-Life Color
-  Engineered Light Beam for Elevators
-  Simple Dimming
-  4+ Hour Battery Backup Option
-  Designed & Made in the USA

i2Systems[®]
ADVANCED LED LIGHTING

The Apeiron™ LTE+ is engineered for elevators. With elevator-optimized optics and beautiful LED color, the LTE+ provides premium lighting at 1/5th the energy of halogen and at an affordable price tag. Designed for simplicity and performance, the Apeiron LTE+ system offers easy wiring, simple dimming, and 4+ hours of battery backup at 100% fixture intensity.

THE TRUTH ABOUT LUMENS

IT'S NOT ALL ABOUT BIG NUMBERS

Our unique optical design ensures a beautiful, widespread distribution and targeted performance specifically engineered for lighting elevators. Our efficient use of light keeps our power low - that means lower energy bills, lower profile fixtures, and lighter power boxes.

Just the right look, engineered for elevators.

PERFECT COLOR

DON'T SETTLE FOR SUB-PAR COLOR

The Apeiron LTE+ is available in 2 colors of white light. As with all i2Systems products, expect perfect color consistency - light-to-light, batch-to-batch.

● 3000°K WARM

Our 3000°K Warm White offers 90+ Color Rendering for True-to-Life color and is the preferred choice for premium cab interiors.

● 4000°K NEUTRAL

For crisp cab lighting, our 4000°K neutral white offers excellent color quality at a slightly cooler color temperature, while still maintaining hints of warmth to ensure wood and skin tones aren't washed out.

why not use LED LIGHT BULBS?

WHY THE APEIRON LTE+ IS A BETTER OPTION:

- Uniquely Designed for Elevators
- Perfect Color Consistency
- Engineered Optics for Elevators
- Designed for 24/7 Operation
- Integrated Dimming
- Battery Backup Solution
- Theft Resistant
- Made in the USA

Simple Snap-In Installation & Plug 'n Play Wiring

Light Beam Engineered for Elevators

Industry's Best Color Rendering (90+) for True-to-Life color

Designed & Made in the USA by i2Systems

THOUSANDS OF LED ELEVATOR LIGHTING INSTALLATIONS WORLDWIDE

SIMPLE POWER

i2Systems all-in-one E12 power box powers up to 9 Apeiron LTE+ fixtures with outstanding performance.

- Onboard Dimming
- Compact Enclosure
- Simple Hookup
- Low Profile Design – Install on top of cab or behind drop ceiling.

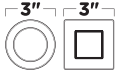

100% Battery Backup

Specify the E12E model to add automatic battery backup for 4+ hours and a 12V bell hookup. When entering battery backup the system defaults to 2 Apeiron LTE+ fixtures at 100% intensity (overriding the dimmer), making it the safer solution.

Lightweight

The whole solution (power, dimmer, and batteries) weighs in at less than 7 pounds complete.

QUICKSHIP MODELS & POWER BOXES

PART NUMBER	DESCRIPTION	FINISH	SIZE & SHAPE
A4390Z-11CBBR	Q Apeiron LTE+ 3000°K	Chrome	3" Round
